### 'Out of truth grows peace'...

...is a biblical concept the church focused on this month, and it is encouraging for all of us to see the church grow spiritually as that truth is internalized and applied here. They are excited to be studying through the doctrinal statement on Sunday evenings, which is progressing an understanding of the necessity of separating from sin in order to pursue biblical peace and unity.

### Church Ministry

More and more new visitors have been coming to services, and one has asked how to be a part of this church. Please pray for the church here as we witness with friends and neighbors, for developing relationships, and for our ability in the Malagasy language to increase. Please pray that God will continue to work in hearts and bring people to hear the truth.

### The children's ministry...

... is overflowing with children hungry for truth. A few come at a great cost when they return home for going to church against the wishes of their parents. Please pray for God to raise up believers here who can lead and teach these children.

### In September,

our family is planning to go to the capital for doctor and dentist appointments, to get Asher and Xara their vaccine boosters, to do some more paperwork, get a minor outpatient surgery for Laura, and hopefully take a little break in there somewhere. Please pray for a safe, profitable, and relaxing trip :)

### Thankful!

God has been exceedingly faithful in supplying the needs here. Though our monthly support level is lacking, God has been sending random gifts at just the right time. We are deeply grateful for your perseverance in prayer and your sacrifice in giving. We thank God for leading us together in His work!
